<b>Section</b>	<b>Contents</b>	<b>Page</b>
	Introduction	1-3
	Reassessment of previous training	4-5
<b>1</b>	<b>Experience in laboratory practice</b>	
1.1a-o	Analyses related to areas of general biochemical interest in a paediatric context	6-9
1.2a-i	Laboratory Investigation of inborn errors of metabolism	10-12
1.3a-e	Techniques of whole population neonatal screening	13-14
1.4a-j	Molecular genetics secondment	15-17
1.5	Other analytical work	18
1.6	Trouble Shooting	19
<b>2</b>	<b>Interpretation of laboratory data &amp; clinical liaison</b>	
2.1	Interpretation of the results of general paediatric biochemistry tests Including table to record DB	20-22
2.2a-u	Interpretation and use of protocols and function tests related to paediatric biochemistry	23-28
2.3a-j	Interpretation and planning of investigations to identify suspected inherited metabolic disorders	29-33
2.4	Liaison in dealing with the follow-up investigations of newborn screening tests	34
2.5	Experience in a district general hospital laboratory serving a paediatric population	34
2.6	Appreciation & understanding of other laboratory non-biochemical tests	35
2.7	Follow-up of interesting cases.	36-38
<b>3</b>	<b>Experience in aspects of patient care</b>	
3.1a-d	Attendance at ward rounds/clinical discussion groups T	39
3.2	Point of care testing	40
3.3	Attendance at clinics	40
3.4	Participation in clinical care of patients with IEM	40
3.5	Clinical genetics	41
3.6	Evidence based practice and development of clinical protocols	41
<b>4</b>	<b>Management &amp; communication skills</b>	
4.1	Laboratory organisation & policies.	42
4.2	Financial control, costing, pricing, contracting, purchasing and commissioning arrangements	43
4.3	Legal requirements: health and safety, data protection etc.	43
4.4	a) Audit meetings attended b) Audit meetings conducted	44
4.5	Total quality management	45
4.6	Accreditation	45
4.7	Personnel	46
4.8	a) Local presentations b) Other presentations	47-48
4.9	a) Report writing b) Preparation of business cases and operational specifications	49
4.10	a) Attendance at tutorials and departmental seminars b) Attendance at scientific meetings and training courses	50-51
4.11	Information Technology	52
4.12	Training of junior grade staff e.g. Grade A Trainees on paediatric secondment	52
<b>5</b>	<b>Research &amp; Development</b>	
5.1	Ethical approval, research design and R&D governance	53
5.2	Literature appraisal	53
5.3	Statistics	53
5.4	Investigational project work including clinical projects	54
5.5	Dissertation	55
5.6	Publications	56
<b>6</b>	<b>Assessment</b>	57

## Introduction

This log book is intended for Grade B clinical biochemists in paediatric Higher Specialist Training posts. The content has been based on HST job book produced by The Association of Clinical Biochemists and the paper produced by Jim Bonham and Anne Green 2002 'Specialist Training for Clinical Scientists Metabolic Biochemistry (Biochemical Genetics).

### **Training Aims**

Training has twin aims, progress towards membership of The Royal College of Pathologists and competence in the practice of metabolic and paediatric laboratory medicine. This logbook is intended as a guide to the breadth of topics that need to be covered during the training and should be used to structure personal training plans. The training path for each trainee will vary according to background, the local environment and personal ambition. The logbook must not be interpreted as prescriptive, but it may well be helpful to identify significant gaps in experience or knowledge that need to be addressed. This may necessitate secondments to other departments locally or nationally.

### **Using the Logbook**

Trainees should attempt to keep a comprehensive record of their training by using this logbook. It is not necessary to complete every section and table. The needs of trainees will vary and this will be taken into account by the Trainers. In particular the training needs of those preparing for part 2 of the examination will be different to those preparing for part 1. However, it is a good discipline to be in the habit of recording achievement and experience as it is happening. This will become standard practice for all state registered clinical scientists as part of the Personal Development Plans and in compliance with Continued Professional Development.

### **Annual Review**

Progress of training will be assessed for each trainee on an annual basis. This will be by interview at which the following should be represented: the supervisor, the MetBioNet local trainer and an ACB Regional Tutor. The latter will pay particular attention to progress towards the MRCPATH examination. This process is a supplement to the regular reviews of progress that should take place between the trainee and supervisor in collaboration with the MetBioNet local trainer.

Mick Henderson  
National Lead Trainer  
MetBioNet

July 2005

INTENDED DATE OF TAKING MRCPPath Part 2.....  
DATE OF PASSING MRCPPath Part 2.....

## Reassessment of previous training

The trainee, in conjunction with his or her Supervisor, should review training achievements during the Grade A training period, and agree those areas that have not been covered adequately, those that need expanding, and those where the trainee feels least competent and wishes to repeat and review earlier training. These should be listed and appropriate time allocated to achieve adequate training.

The trainee may find it helpful to carry out a SWOT analysis by thinking carefully about his or her Strengths and Weaknesses with respect to training and education, and what Opportunities and Threats there are to accomplishing the goals required. In addition some time should be taken in considering this training record and noting his/her areas of strengths/weaknesses in each of the sections. This exercise should form part of the initial assessment with the Supervisor during the first week in the Grade B HST post.

### Pre-Grade B training SWOT analysis

Strengths	Weaknesses
Opportunities	Threats

## Reassessment of previous training

Topics to be addressed should be agreed at the beginning of the Grade B training period and dated and initialled by the Supervisor on completion.

Topic	Date	Initials

**1. EXPERIENCE IN LABORATORY PRACTICE**

**1.1 Analyses related to areas of general biochemical interest in a Paediatric context including:**

1.1a) Liver disease	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
1.1b) Disturbances of water and electrolyte metabolism	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
1.1c) Disturbance of calcium, phosphate and magnesium	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
1.1d) Disturbances of oxygen/ CO <sub>2</sub> transport and H <sup>+</sup> metabolism	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----

1.1e) Kidney and urinary tract disease	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- -----
1.1f) Disease of the gastrointestinal tract and pancreas	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- -----
1.1g) Clinical enzymology	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- -----
1.1h) Disturbances of lipid and carbohydrate metabolism	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- -----
1.1i) Disease based on nutritional disturbances	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- -----

1.1j) Nervous system disorders	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- -----
1.1k) Disorders of haemoglobin and porphyrin synthesis	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- -----
1.1l) Disorders of the endocrine system	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- -----
1.1m) Toxicology	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- -----
1.1n) Drugs and therapeutic monitoring	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- -----

	<i>Date</i>	<i>Competency Achieved/General Comments:</i>
1.1o) Biochemical aspects of malignancy		----- ----- ----- ----- ----- ----- ----- ----- ----- -----

**1.2 Laboratory investigation of inborn errors of metabolism including:**

1.2a) Simple screening tests and TLC	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
1.2b) Gas chromatography/ mass spectrometry	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
1.2c) Automated amino acid analysis	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
1.2d) High Pressure Liquid Chromatography	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----

<p>1.2e) Tandem Mass Spectrometry -for population screening -for diagnosis and follow up</p>	<p>Date</p>	<p>Competency Achieved/General Comments:</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p>
<p>1.2f) Specialist assays of intermediary metabolites, carnitine and acyl carnitines,</p>	<p>Date</p>	<p>Competency Achieved/General Comments:</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p>
<p>1.2g) Red cell enzymes, tissue culture and enzyme assay for selected disorders, white cell enzymes</p>	<p>Date</p>	<p>Competency Achieved/General Comments:</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p>
<p>1.2h) Relevant DNA techniques</p>	<p>Date</p>	<p>Competency Achieved/General Comments:</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p>

1.2i) Requirements for QA in investigation of inborn errors	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
---	-------------	--

**1.3 Techniques of whole population neonatal screening for:**

1.3a) Phenylketonuria	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- -----
1.3b) Neonatal hypothyroidism	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- -----
1.3c) Cystic Fibrosis	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- -----
1.3d) Haemoglobinopathies	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- -----

1.3e) MCAD	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
------------	-------------	--

**1.4 Molecular Genetics**

Completion of this section may require secondment to a genetics laboratory.

1.4a) DNA Structure and function (from genes to proteins) including mutation nomenclature, structure and function of the human genome	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
1.4b) Use of web based services and databases, use of relevant software	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
1.4c) Principles of Mendelian inheritance including chromosome structure, function and linkage	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
1.4d) Principles of DNA technology	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----

<p>1.4e) Extraction of DNA, RNA and preparation of DNA including measurement from a variety of tissues including blood and chorionic villus tissue</p>	<p>Date</p>	<p>Competency Achieved/General Comments:</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p>
<p>1.4f) Understand and undertake PCR and southern blotting</p>	<p>Date</p>	<p>Competency Achieved/General Comments:</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p>
<p>1.4g) Understand and perform a range of mutation analysis techniques across a variety of disorders</p>	<p>Date</p>	<p>Competency Achieved/General Comments:</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p>
<p>1.4h) Understand and perform microsatellite analysis</p>	<p>Date</p>	<p>Competency Achieved/General Comments:</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p>

<p>1.4i) Understand and perform sequencing reactions</p>	<p><i>Date</i></p>	<p><i>Competency Achieved/General Comments:</i></p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p>
<p>1.4j) Understanding of Bayesian Calculation and estimation of genetic risk and reporting policies encompassing confidentiality and checking</p>	<p><i>Date</i></p>	<p><i>Competency Achieved/General Comments:</i></p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p> <p>-----</p>

<b>1.5 Other analytical work</b>	
<b>Date</b>	<b>Work carried out</b>

**1.6 Troubleshooting**

This should cover as broad a range as possible including instrumentation, specimen handling and processing, 24 hour staffing and handling mistakes and complaints.

<b>Date</b>	<b>Problem</b>

**Duty Biochemist**

Indicate the number of sessions involved each week (1 session = ½ day)

Year	Week number

**2.2 Interpretation and use of protocols and function tests related to paediatric biochemistry, e.g.:**

2.2a) Sweat tests	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.2b) Pancreatic function tests	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.2c) Water deprivation test	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.2d) Urine acidification test	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----

2.2e) Phosphate excretion indices	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.2f) Combined testing of anterior pituitary function	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.2g) TRH test	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.2h) LHRH test	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----

2.2i) Growth hormone stimulation test (clonidine)	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.2j) Sleep growth hormone estimations	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.2k) Insulin tolerance test	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.2i) Growth hormone suppression test	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----

2.2m) Tests of adrenal cortical function	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.2n) Glucose tolerance test	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.2o) Fasting tests	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.2p) Protein loads	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----

2.2q) Investigation of hypoglycaemia in children	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.2r) Ischaemic and non-ischaemic exercise tests in suspected muscle glycogenoses	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.2s) Fructose tolerance test	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.2t) Investigation of carrier status for OTC deficiency	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----

2.2u) Biochemical monitoring of patients receiving total parenteral nutrition	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
---	-------------	--

**2.3 Interpretation and planning of investigations to identify suspected inherited metabolic disorders including:**

2.3a) Disorders of amino acid metabolism and transport	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.3b) Organic acid disorders	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.3c) Disorders of carbohydrate metabolism	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.3d) Peroxisomal disorders	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----

2.3e) Lysosomal disorders	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.3f) Disorders of mitochondrial function	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.3g) Disorders of lipid and bile acid metabolism	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.3h) Disorders of purine and pyrimidine metabolism	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----

2.3i) Disorders of metal transport	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
2.3j) Other disorders	<i>Date</i>	<i>Competency Achieved/General Comments:</i> ----- ----- ----- ----- ----- ----- ----- ----- ----- -----

**Interpretation of Metabolic Investigations**

Indicate the number of sessions each week and type of session (eg. AA/OA/TMS)

<b>Year</b>	<b>Week number</b>

**3. EXPERIENCE IN PATIENT CARE TO INCLUDE:**

**3.1 Attendance at ward rounds relating to:**

	<i>Date</i>	<i>Competency Achieved/General Comments:</i>
3.1 a) Paediatric TPN		----- ----- ----- ----- ----- ----- ----- ----- ----- -----
3.1 b) General Clinical Specialist Rounds		----- ----- ----- ----- ----- ----- ----- ----- ----- -----
3.1 c) Special Care Neonatal Unit		----- ----- ----- ----- ----- ----- ----- ----- ----- -----
3.1 d) Other rounds (endocrinology, oncology, neurology, hepatology)		----- ----- ----- ----- ----- ----- ----- ----- ----- -----

**3.2 Point of care testing**

	<i>Date</i>	<i>Competency Achieved/General Comments:</i>
		----- ----- ----- ----- ----- ----- ----- ----- ----- ----- -----

**3.3 Attendance at clinics related to paediatric endocrine, renal, lipid and liver disease**

	<i>Date</i>	<i>Competency Achieved/General Comments:</i>
		----- ----- ----- ----- ----- ----- ----- ----- ----- ----- -----

**3.4 Participation in clinical care of patients with Inborn Errors of Metabolism**

	<i>Date</i>	<i>Competency Achieved/General Comments:</i>
		----- ----- ----- ----- ----- ----- ----- ----- ----- ----- -----

**4. DEVELOP MANAGEMENT AND COMMUNICATION SKILLS**

**4.1 Laboratory organisation and policies**

Understand departmental, Trust and national NHS management structures.	Date	Competency Achieved/General Comments: ----- ----- ----- ----- ----- ----- ----- ----- ----- -----
--	------	---

<b>Date</b>	<b>Management meetings attended</b>

<b>Date</b>	<b>Management courses attended</b>

**4.2 Financial Control Costing, Pricing, Contracting, Purchasing and Commissioning Arrangements**

	Date	Competency Achieved/General Comments:
Be able to interpret budgets		..... .....
Be able to construct a business case.		..... .....
Understand the principles of procurement processes.		..... .....
Be aware of Trust Standing Financial Instructions.		..... .....
Be aware of the NHS commissioning processes		..... .....

**4.3 Legal Requirements: Health & Safety, Data Protection, etc**

	Date	Competency Achieved/General Comments:
Understand local and national risk management procedures		..... .....
Prepare an adverse incident report		..... .....

**4.4 Audit**

**a) Audit meetings attended**

<b>Date</b>	<b>Audit Meeting</b>

**b) Audits conducted**

<b>Date</b>	<b>Type e.g clinical, laboratory management</b>	<b>Topic</b>

**4.5 Total quality management**

**Participation in overall programme of quality management. Includes internal quality control programmes, external assessment schemes and problem solving.**

	Date	Competency Achieved/General Comments:
Be aware of the relative roles of: NEQAS ERNDIM CDC And other EQAS providers		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----

**4.6 Accreditation (Processes, purposes, requirements, CPA standards)**

	Date	Competency Achieved/General Comments:
		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----
		-----

**4.7 Personnel**

	<i>Date</i>	<i>Competency Achieved/General Comments:</i>
<b><i>Strategic planning for services</i></b>		..... ..... .....
<b><i>Man power planning</i></b>		..... ..... .....
<b><i>Employment of staff</i></b>		..... ..... .....
<b><i>Constructing job descriptions</i></b>		..... ..... .....
<b><i>Person specifications</i></b>		..... ..... .....
<b><i>Interview processes</i></b>		..... ..... .....
<b><i>Employment and the law</i></b>		..... ..... .....
<b><i>Staff appraisal interviews</i></b>		..... ..... .....
<b><i>Personnel development plans</i></b>		..... ..... .....
<b><i>Continuing professional development</i></b>		..... ..... .....

**4.8a) Local presentations (e.g. departmental, grand round)**

<b>Date</b>	<b>Type</b> e.g. case report, research project, journal club	<b>Level</b> e.g. departmental, grand round	<b>Title</b>

**4.8b) Other presentations (regional/national/international)**

<b>Date</b>	<b>Type</b> <i>e.g. case report, research project, poster</i>	<b>Level</b> <i>e.g. regional, national, international</i>	<b>Title</b>

**4.10 Attendance at meetings**

**a) Tutorials and departmental seminars (summary)**

<b>Date(s)</b>	<b>Details</b>

**b) Scientific meetings and training courses**

Date	Details of meeting/course attended

**5. RESEARCH AND DEVELOPMENT**

**5.1 Ethical approval, research design and R&D governance**

	<i>Date</i>	<i>Competency Achieved/General Comments:</i>
		----- ----- ----- ----- ----- ----- ----- ----- ----- -----

**5.2 Literature appraisal (critical appraisal of relevant literature as part of investigative projects)**

	<i>Date</i>	<i>Competency Achieved/General Comments:</i>
		----- ----- ----- ----- ----- ----- ----- ----- ----- -----

**5.3 Statistics**

	<i>Date</i>	<i>Competency Achieved/General Comments:</i>
		----- ----- ----- ----- ----- ----- ----- ----- ----- -----

**5.4 Investigational project work including clinical projects**

<b>Date</b>	<b>Title</b>	<b>Outcome</b>

**5.5 Dissertation (Towards Part 2 MRCPATH)**

**Title**

**Details (outcome, skills learnt)**

<b>5.6 Publications</b>
1) Title
